## Weill Cornell Comprehensive Dermatopathology Service

### *Excellence in Academic and Diagnostic Dermatopathology*

Weill Cornell Comprehensive Dermatopathology Service is a leading-edge consultation service and CAP-accredited laboratory for dermatologists, plastic and general surgeons and other dermatopathologists. Guided by the vision and leadership of the internationally renowned dermatopathologist Dr. Cynthia M. Magro, the Service offers referring physicians the speed and accuracy of results that can make a life-saving difference.

#### Referring physicians and their patients benefit from:

- Consultation and case review with an expert in Dermatopathology.
- A state-of-the-art specimen analysis laboratory.
- Efficient, timely reporting.
- Routine diagnostic cases interpreted within 24 hours of specimen receipt.
- Comprehensive B, T, and NK cell immunophenotyping performed and interpreted within 72 hours of receipt of specimen.
- Complex molecular analyses to determine B and T cell lineage and clonality available within five business days.
- Utilization of a large array of immunohistochemical markers to assess neoplasia.

## Services

- ▶ **Routine H and E Interpretation**
- ▶ **Electron Microscopy**  
Epidermolysis bullosa, indeterminate cell proliferative disorder, Langerhans cell histiopathy, congenital ichthyosis.
- ▶ **B and T cell Gene Rearrangement Studies**
- ▶ **Fluorescent In Situ Hybridization**
- ▶ **In Situ Hybridization**  
Comprehensive HPV typing.
- ▶ **Comprehensive Immunohistochemistry**  
Including lymphocyte markers.
- ▶ **Direct Immunofluorescence**
- ▶ **Indirect Immunofluorescent C5b-9 Assay**
- ▶ **Salt Split Skin Assay**  
Distinction of Bullous Pemphigoid and Epidermolysis bullosa acquisita.
- ▶ **Indirect Immunofluorescent Testing**  
Assessment of circulating antibodies directed against endothelium and pemphigus/pemphigoid antigens.
- ▶ **Second Consultative Opinions**  
Inflammatory skin disease, lymphoproliferative lesions and melanocytic proliferations.
- ▶ **Specimen Transport**  
Local courier services provide a daily pick-up and transport of specimens. Specimens may also be submitted via FedEx.
- ▶ **Reports**  
All reports are autofaxed.
- ▶ **Duplicate Slides**  
Duplicate slides are available upon request.

## Dr. Cynthia M. Magro

Director  
Weill Cornell Comprehensive  
Dermatopathology Service

Dr. Cynthia M. Magro is an internationally renowned dermatopathologist, educator and author. She is a Professor of Pathology and Laboratory Medicine at the Weill Cornell Medical College in Manhattan, and is board certified in anatomic pathology, dermatopathology and cytopathology. Dr. Magro is an expert in the diagnosis of complex inflammatory skin diseases. Her areas of expertise include cutaneous manifestations of autoimmune disease, systemic viral disease and vasculitis, atypical drug reactions, benign, atypical and overtly malignant lymphocytic infiltrates of the skin, and diagnostically difficult melanocytic proliferations.

The award-winning author of *The Melanocytic Proliferation: A Comprehensive Textbook of Pigmented Lesions*, Dr. Magro has recently completed her second book, *The Cutaneous Lymphoid Proliferation*, a comprehensive textbook on benign and malignant lymphocytic infiltrates. She has co-authored over 170 peer reviewed papers and several textbook chapters.

Dr. Magro frequently presents courses on inflammatory skin pathology and difficult melanocytic proliferations to the American Academy of Dermatology, the United States and Canadian Academy of Pathology, and the American Society of Clinical Pathology.
